

The Baltic Science Network Mobility Programme initiates **Research Internships** across the **Baltic Sea Region** for students interested in

Life Sciences, Photon & Neutron Science and Welfare State

PhD candidates host research internships for BA/MA students in 2020/2021

Internship period: August 2020-July 2021

monthly calls for applications starting July 1st 2020 till May 2021

Apply as a PhD host with your project and welcome a BA/MA student as intern from the Baltic Sea region

Call for PhD candidates' project offers	July 2020 - May 2021 calls: 1. – 16. of the respective month (12:00 pm CET – Central European Time)
---	--

Apply as an intern and become a BARI-internship holder

Call for applications BA/MA students	July 2020 – May 2021 calls: 1. – 16. of the respective month (12:00 pm CET – Central European Time)
--------------------------------------	--

Four-step application and selection process:

1. PhD candidate (**internship provider**) submits project offer online on the **BARI-database-portal**.
2. BA/MA student (**applicant**) applies online for up to three projects of his/her choice on the **BARI-database-portal**.
3. PhD candidate ranks the received applications.
4. Intern is allocated to provider based on **first come first served basis** and the available funding.

Both, the intern and his/her host are free to arrange the timing of the internship (it should be realized between **August 2020 and July 2021** and the duration should be between **2 -12 weeks**).
