

BSN Final Conference / CBSS Science Day Working Group 1 Key Results

Supporting academic mobility for young
researchers –
lessons learnt and future perspectives for the BSR

Mobility for young researchers

Lessons learnt

- Different tools exist (PHD training, summer schools, BARI mobility programme)
- BARI was very efficient during the pandemic as a tool that fosters individual mobility
- BARI has experience in pooling resources from 10 different funding agencies
-

Mobility for young researchers

Potential for cooperation

- BUP, CBSS are part of BSN: cooperation can be extended further
- CBSS PSF: Joint application for BARI and Baltic Sea Educational Academy (B-SEA) ensured funds for both tools
- HALOS is interested to pilot a mobility tool cooperation with BARI/BSN planned

Mobility for young researchers

Hopes and expectations for mobility in post-covid time?

- We aim for a continuation, depending on funding: ERASMUS + as a good opportunity
- temporary solution (BARI light) will be further elaborated
